Pretax or Roth contributions

You have a choice regarding your elective contributions. You can direct all of your contributions to a traditional pretax account, to a Roth account or to a combination of the two. Contributions to a Roth account are after-tax. Regardless of your election, you are subject to the annual contribution limits detailed previously.

Stop/change contributions

You may discontinue contributing at any time. Once you discontinue contributions, you may start again as provided under the terms of the plan. You can change your investment choices at any time. In the meantime, your account will continue to grow on a tax-deferred basis.

Vesting

You are always 100% vested in your own contributions.

Account consolidation

You might be able to transfer your vested retirement account balance from a prior employer's plan to your CSD Retirement Trust 457(b) plan with Corebridge. This may be a way to simplify your financial profile and to ensure your overall investments are suitably diversified and consistent with your investment preferences. However, before moving funds, check with your other provider to determine if your account has any restrictions, imposes a withdrawal penalty or provides favorable terms. If distributions from the prior plan are subject to the 10% federal early withdrawal tax penalty, they will continue to be subject to the penalty after the rollover (even if the penalty did not apply due to severance from employment at age 50 or 55).

Investment flexibility

You decide how to invest all contributions among the mutual funds and the Fixed-Interest Option* offered under the CSD Retirement Trust.

Remember, this plan represents a long-term investment. Investment values of the mutual funds you choose will fluctuate, and there is no assurance that the objective of any fund will be achieved. Mutual fund shares are redeemable at the then-current net asset value, which may be more or less than the original cost. Bear in mind that investing involves risk, including possible loss of principal.

Fixed-Interest Option withdrawal/transfer restrictions

You may withdraw no more than 20% from the Fixed-Interest Option annually. There is no withdrawal charge for this transaction. In-service transfers from the Fixed-Interest Option to another funding entity can be accomplished over a five-year period. There are no transfer or withdrawal restrictions if one of the following conditions is met:

Annuity payout option is selected

- Your death
- Total and permanent disability
- Plan-to-plan transfers used for purchasing years of service credits
- Withdrawal taken as a hardship under the terms of the employer plan
- Retirement or severance from employment from the employer who sponsors your plan
- Election to transfer a portion of the account value to a companion account for a loan
- Your plan was established to encourage long-term savings, so withdrawals prior to age 59½ may be subject to federal restrictions and a 10% federal early withdrawal tax penalty.
- Generally, depending on your plan provisions, you may withdraw your vested account balance if you meet one of the following requirements:

Tax-free loans

The plan is intended to help you put aside money for your retirement. However, the CSD Retirement Trust has included a plan feature that enables you to access money from the plan tax free without permanently reducing your account. All loans may be repaid over time.

- The amount the plan can loan to you is limited by rules under the tax law. All loans will be limited to the lesser of one-half of your vested account balance or \$50,000.

Plan Highlights

- The minimum loan amount is \$1,000.
- All loans must generally be repaid within five years.
- The loan can be prepaid in full without penalty at any time. Partial prepayments are not allowed.
- You may have multiple outstanding loans.
- You pay interest back to your account. The interest rate on your loan will be a fixed rate of 1% above the current prime interest rate as published from time to time in the *Wall Street Journal*.
- A \$50 processing fee for all new loans and a \$50 per year loan maintenance fee are charged to your account.

Other requirements and limits must be met prior to borrowing money from your account. For additional information regarding loans, please see your financial professional.

Withdrawal restrictions

Your plan was established to encourage long-term savings. Unlike many other plan types, there is no 10% federal early withdrawal tax penalty for early withdrawals in the 457(b) plan except on amounts rolled over from another non-457(b) eligible retirement plans and withdrawn prior to age 59½.

Generally, depending on your plan provisions, you may withdraw your vested account balance if you meet one of the following requirements:

- Retirement or severance from employment
- Unforeseeable emergencies
- Your death
- Reaching age 59½ (if your plan allows in-service distributions)

In addition, you must begin taking distributions once you reach age 72 (age 70½ if born before July 1, 1949) or you retire, whichever is later.

Distribution options

Your plan offers many distribution options, allowing you to tailor your benefits to meet your individual needs. Depending on plan provisions, your withdrawal options include:

- Transferring or rolling over your vested account balance to another tax-advantaged plan that accepts transfers of rollovers
- Electing systematic or partial withdrawals
- Taking a lump-sum distribution

- Choosing one of the many annuity payout options available
- Deferring distributions until the later of age 73 (age 70½ if born before July 1, 1949) or severance of employment, and allowing your account to continue to grow on a tax-deferred basis

Qualified distributions from a Roth account are tax-free. Generally, a qualified Roth distribution is a distribution that (1) is withdrawn after the end of the five-year period beginning with the first year in which a Roth contribution was made to the plan, and (2) is after reaching age 59½, death or disability.
